INTERNATIONAL RELATIONS, 6th Edition**
TITU MAIORESCU UNIVERSITY - FACULTY OF LAW

THEME: ROMANIAN LAW, TRADITION AND EUROPEAN VOCATION

Bucharest, May 17-18, 2018

With a decade of experience in organizing the International Conference "**Education and Creativity for a Knowledge-based Society**", TITU MAIORESCU UNIVERSITY Bucharest launched in 2013, a new scientific challenge by organizing *The International Conference on Law, European Studies and International Relations*. At previous editions were presented more than 350 scientific works of some renowned professors, researchers and PhD students from Romania and abroad. Trilingual held in Romanian, English and French, the five editions of the conference were attended by over 30 teachers from Spain, Italy, France and Israel universities.

The conference volumes of the five editions published by the Hamangiu Publishing House were distributed to each participant at the beginning of the conference and thereafter to the most reputed teachers in Romania, as well as academic libraries. These volumes are assigned ISBNs **978-606-678-642-3, 978-606-27-0020-1, 978-606-27-0222-9, 978-606-27-0607-4, 978-606-27-0879-5** and are indexed ISI –Proceeding and Hein Online.

The International Conference of Law, European Studies and International Relations aims to reunite scientists, academics, researchers, PhD students, students and, last but not least, law practitioners to exchange and share their experiences and research results. The main theme of the conference regards both the different issues related to *the law reform in the spirit of new national, European and international perspectives*, as well as challenges encountered and the solutions adopted in practice.

We sincerely believe that this important scientific event will be one of the most prestigious events on the national legal calendar, with international echo, providing an opportunity to discuss the current issues affecting the legal community, aiming to highlight new solutions and interpretations.

In a world in which legal systems increasingly interfere, legal tradition needs a continuous upgrade to meet diversity. The Conference is based on the idea that law does not develop in an abstract way, but it is shaped by society, by the economic and social reality, by the intellectual, cultural and linguistic environments, and, especially, by immediate needs and by the identification of appropriate solutions.

We invite you to be a part of the debate on the most interesting national and international legal themes!

Conference presentations are organized by topic in sections:

- Section A: European Law - Is the European Union Closer to its Citizens or to Member States?
- Section B: The Francophone Development of Romanian Law
