

List of Diplomas recognized by the Romanian Ministry of Education for foreign citizens enrollment in undergraduate program of studies

High school studies completed in alternative systems	<p>Foreign citizens who completed alternative forms of education—such as home schooling, online schooling, or hybrid/blended learning—may apply for admission to university studies in Romania, as long as these forms of education are regulated and officially recognized by the laws of the country where they were organized. To be eligible, applicants must meet all of the following conditions:</p> <ul style="list-style-type: none"> • they have followed a study program organized by an institution that is accredited and authorized under the laws of the country in which they operate, and recognized by the competent educational authority; • they must present yearly academic transcripts and diplomas issued by accredited educational institutions, that have been evaluated and authorized by internationally recognized accreditation agencies.
Diplomas that give access to restrictive fields in the issuing country	<p>Pre-university education certificates that allow access only to certain study programs in the country of origin may be accepted in Romania for similar programs as in the country of origin. Each case is evaluated individually for enrollment in similar programs in Romania, based on the criteria set by the educational institution.</p>
