

Titu Maiorescu University of Bucharest

Report

INTRODUCTION

Thank you for taking part in QS Stars. This is an opt-in rating system for higher education institutions, evaluating them against a range of performance indicators across several categories. The rating system is different from the QS World University Rankings, although the two can work together. QS Stars allows institutions to highlight their strengths, no matter how they perform in the rankings. Unlike rankings, QS Star ratings are entirely based upon an institution's performance, and not how they compare to their peers.

With QS Stars, an institution receives between 0 and 5+ Stars overall, as well as a rating of between 0 and 5 Stars in at least nine categories. Institutions can purchase a subscription to advertise their results, receiving badges with the overall results as well as the results for each category. Results are typically valid for three to five years.

The objective of this report is to provide a detailed summary of your institution's results, including both the final data and points awarded for each indicator. You may use this report to highlight the institution's strengths, as well as to identify any weaknesses and areas for improvement.

FURTHER ASSISTANCE

If you have any questions about our processes or source, or discover any anomalies, peculiarities or errors, please contact qsstars@qs.com. Detailed feedback and suggestions for improvements are also very welcome!

Audit start date 09/03/2026

Delivery date 24/08/2026

Audit validity date 05/03/2026 - 04/03/2031

*After this date passes the institution's results will expire, and they should be re-audited.

Learning experience

Teaching

A key role of universities is to nurture its students’ learning and personal development. Universities rated highly in this category are recognized for their dedication to delivering high-quality teaching, fostering student engagement, and maintaining an environment conducive to learning and academic excellence. In this category we consider areas such as the faculty-student ratio, student satisfaction, rate of completion, retention, and further study.

Programme strength ★ ★ ★ ★

The Programme strength category focuses on a university's ability to showcase the excellence of a specific programme it selects from its degree offerings. We examine how competitive and well-regarded this programme is, considering its appeal to leading faculty and promising students, as well as its standing and recognition in the wider academic and industry.

Medicine

SCORES

Employability & outcomes

Employability

Graduate employability depends on more than academic strength, focusing on readiness for work – the ability to working effectively in a multi-cultural team, deliver presentations, and to manage people and projects. Areas like the university’s reputation among employers, the graduate employment rate, employment outcomes and career service support are considered here.
